Stage 6 · Prompts

Track F · Family Learners

One Surface Per Prompt, The Walls Block, Tests After Every Paid Turn

How the only paid stage works: small build prompts that carry their own tests and rollback step, the six steps after every paid turn, and the Send gate.

How Build Prompts Are Written

M07-L1 · About 6 Minutes

You can list what every paid build prompt must carry and explain why each prompt does only one job.

How Build Prompts Are Written

M07-L1

One Request, Two Jobs, Big Risk

Rory is thirteen.

How Build Prompts Are Written

Stage 6 Is The Only Paid Stage

This is Stage 6, called Prompts.

How Build Prompts Are Written

M07-L1

One Goal, One Surface

The first rule is one goal, one surface.

How Build Prompts Are Written

M07-L1

The Blocks Every Prompt Carries

Every prompt is built from fixed blocks.

How Build Prompts Are Written

M07-L1

Each Prompt Carries Its Own Test

Each prompt also carries its own test.

How Build Prompts Are Written

M07-L1

A Rollback Step For Every Prompt

Each paid prompt also carries a written rollback step.

How Build Prompts Are Written

M07-L1

The Go Word And The Sends List

Before any prompt goes out, the factory writes a three-line pre-send report and adds a task to a list called Sends.

How Build Prompts Are Written

M07-L1

Small, Tested And Reversible

So a good build prompt is small, tested and reversible.

Recap

How Build Prompts Are Written

- **One Goal, One Surface: An And Means Two**
- **Walls Block, Test And Rollback In Every Prompt**
- **Owner Gives The Go Word Before Each Paid Send**

WHY IT MATTERS

Small Prompts Fail Small And Undo Easily

Quick Check

How Build Prompts Are Written

Why is Stage 6 different from every other stage?

A It is the only stage with a gate

B It is the only stage that uses tables

C It is the only stage run by the customer

D It is the only stage that spends credits

After Every Paid Turn

M07-L2 · About 6 Minutes

You can put the six after-turn steps in order and explain what the Send gate needs before an app moves on.

After Every Paid Turn

M07-L2

Done On Screen Is Not Done

Ava is fifteen.

After Every Paid Turn

M07-L2

Six Steps, Always In This Order

After every paid turn, the factory follows six steps, always in the same order.

After Every Paid Turn

M07-L2

Step One: Record On Landing

Step one is record on landing, and it happens before any check, test or reply.

After Every Paid Turn

M07-L2

£

Step Two: Spend And Refund Check

Step two compares what the turn cost with the written estimate.

After Every Paid Turn

M07-L2

Steps Three And Four: Publish, Then Probe

Step three is publish, which puts the new version on the live site.

After Every Paid Turn

M07-L2

Step Five: Member Tests On Both Brands

Step five is the member tests.

After Every Paid Turn

M07-L2

The Send Gate (6-7): Proved Live

Step six marks the send as done, and a scorecard is written: what was predicted against what actually happened.

After Every Paid Turn

M07-L2

Done Means Proved Live

So here is the lesson in one line: done means proved live from outside.

Recap

After Every Paid Turn

- **Record First, Before Any Check Or Reply**
- **Publish, Then Probe Every Table Signed Out**
- **Send Gate Needs Proof Live And Two Fresh Sign-Ins**

WHY IT MATTERS

A Turn Is Only Done When Proved Live

Quick Check

After Every Paid Turn

What is the first step after every paid turn?

A Publish the new version

B Record the prompt and reply word for word

C Run the member tests

D Tell the customer it is ready
