Picking A Base, Bricks, Shelves And Kits

How the factory picks a proven base to start from, and the bricks, shelves and kits every app is assembled from.

Picking A Base

M03-L1 · About 6 Minutes

You can explain how the factory picks a base, copies the template and passes the Base gate.

Starting From Nothing Is Slow

He had an idea for a booking desk for dog groomers, a bit like our sample app Trimtable, and it had just passed the Merit gate.
